

Dear Susan,

I wanted to send you this with a note to say Thank You!!

Ted really was the best behaved horse on the ride and it was great fun. It would not have come about without your help and I wanted you to know we're doing fine and we thank you.

Sincerely
Venita Caldwell

Venita had an arabian gelding named Teddy. Teddy was "Spooky" according to Venita. He would spook, she would become unsettled, then he would buck and she would come off. The last trainer she went to told her that getting bucked off was just part of riding horses. I assured her that it wasn't part of my program. In this series of pictures I am teaching Venita how to work with Teddy under "spooky" circumstances. In this case, crossing a tarp. In the middle picture he is standing on it calmly. Venita learned how to communicate with and stay in control with Teddy. The result was this note. She won a certificate for the Best Behaved Horse on the trail ride!
